“ I remember when Russell and I were dating she found out that I loved shrimp and every time she invited me to eat she would cook shrimp especially for me. I thought that was so sweet and thoughtful.

I remember one time when we take her out to eat she ordered crab claws she told me to try one and from that time on I was hooked on them. Before I meet Mrs. Foster I would not eat salads but she encouraged me to try her blue cheese dressing and I loved it.

I remember watching her make biscuits, she had no recipe, she just throw all the ingredients in a bowl, mixed and out of the oven came the best home-made biscuits ever!

She was a giving person who loved to share, many times in our early marriage she would go to her freezer and send us home with a porterhouse steak. And if she knew of someone who was ill or needed food she enjoyed sending them a plate of food.

She was also gracious enough to let us live in the old home place when we first married which help us out greatly.

I remember once Mrs. Foster, Sheila and I went shopping and bought me some clothes.

She loved to keep her grandchildren. She also loved to buy them new Easter clothes.

I remember every time the family got together she want a family picture taken. The kids would always complain but she always got her picture. I know they now treasure these pics.

Boy did she have a green thumb I believe if she had stuck a dead twig in the ground a tree would have took root.

She had been sick for a long time and I am so glad she is well and walking the streets of gold. Sweet Lady with a big heart!

My love and condolences to the family.

Denise Foster
