LT

“ I miss you already Danny. You were a wonderful, caring soul, living in a time where people didn't always have the courage to understand who you were. You were bold, and stood in a league of your own, something many people don't comprehend. But you always remained true to yourself, and for that, I will always remember you. Yes, Danny, you were a one in a million soul, and I am proud to have been able to not only call you my friend, but my family as well. May you be blessed, and in a better place. In a place where people understand and appreciate you for just who you are, Mr. Danny Tucker, all around great and decent human being. Until we meet again, Lauren Tucker
