“ I always enjoyed the questions he had on Facebook, didn't always answer but loved to see the ones who did answer and check out the responses. I had planned on coming by to sit and talk but his health situation and mine got in the way of he ever getting around to doing that. He was a good friend, known him since elementary school, we had great conversations because we were both going through serious health issues and we could relate to each others problems. I will definitely miss Kenny being on Facebook but mite than anything his friendship and his love for all his friends, his family he treasured do much especially Denise (aka) Honey Bunny. May God be with you the next several weeks and months getting your life adjusted to just having those memories. Kenny, you will be missed more than you know. Love you Family.
