“ Robert was my pops. I loved him very much! Even when times were tuff between he an I we managed to find our way back together. I was his biggest fan in his racing days! He even paint one of his racing car my favorite colors purple. We were just 2 pea's in a pod about racing. We both loved it our entire live an I still do! My pops was what you call a mans man! He was tuff,could hold his own,he was the life of the party,an a devoted father an grandfather! I wished he could've been around a little longer to see his great grandson when he's born. All of my pops buddy's called me little Robert because I was a scrappy as he was an Nobody was gonna talk smack about my pops or they had to answer to my 3.5 foot 8yr old fists swinging self! One of many thing I'm greatful for my pops teaching me was how to work on a car! He always told me "He was gonna have no kid of his broke down An stranded on the road. If I had a car problem he would tell me to call him an get under my car an he would tell me how to fix it on the phone. He was a master of many trades especially being a machanic! He always amazed me how he could listen to my car on the phone an actually tell me what was wrong with it. We both have a love of motorcycles. He use to ride me with him on his chopper An was not surprised when I drove up one day on my own Hog! He said then I was a chip off the ole block! An that was for sure! I will always miss him an it felt like 1/2 of me died when he did. I will teach my soon to be grandson all about my pops an what a great man he really was! Thanks Pops for everything you taught me it's really come in handy! I love you forever! Love your favorite kid Lisa
