“ Sara was my dear friend for over 40 years. The times we spent together, worked together. There truly wasn't anyone like her. There are no words to describe how kind and deep her love was for her family and friends. I remember when she was pregnant and lived by those noisy railroad tracks. I remember my daughter was about 18 months and she called the african an African. We laughed and we would laugh about it all the time. There is not enough room on here for all the times and memories we shared. Renee and Karen my heart goes out to you in this difficult time. Love and prayers
